## Filmless Hiring Team

Re: Freelance Cinematographer Position

Dear Filmless Team,

I'm excited to apply for the Freelance Cinematographer position at Filmless. After reviewing your portfolio, I'm impressed by your mission to democratize professional video production. Your diverse range—from corporate testimonials to complex productions—aligns perfectly with my 10+ years of cinematography experience creating content for wide-ranging audiences.

## Professional Experience & Equipment

I bring complete professional equipment including Sony A7 IV, Sony FX30 (2x), comprehensive lens collection, and professional lighting kit. My multi-camera expertise is demonstrated through complex interview productions for MintPress News, where I've managed lighting, audio, and multiple camera angles for documentary content covering global issues.

My A. Parker Garage Doors project exemplifies my approach: I transformed a standard testimonial shoot into compelling visual storytelling by identifying creative angles and lighting opportunities during a full-day installation filming. From client consultation through final delivery, I managed the complete production pipeline while capturing authentic working-class craftsmanship in challenging conditions.

## Efficient Production & Client Collaboration

Understanding Filmless values speed and efficiency, I've developed streamlined workflows for rapid setup and breakdown while maintaining broadcast-quality standards. My experience ranges from quick turnaround social media content to complex multi-camera documentary productions, always adapting my approach to serve specific client objectives.

Direct client collaboration is a strength—I work effectively with businesses of all sizes, from local contractors to news organizations. My ability to follow shot lists while identifying enhancement opportunities ensures clients receive exceptional value beyond their initial expectations.

## Technical Capabilities & Availability

I'm equipped for immediate deployment with reliable transportation and organized equipment cases for efficient location work. My experience includes green screen setups and mobile studio configurations, valuable for Filmless's diverse production needs.

My 2025 Cinematography Reel showcases the technical expertise and creative vision I bring to every project, demonstrating consistent quality across varied production types and budgets.

### **Ready to Contribute**

I'm available immediately and excited about contributing to Filmless's continued growth. My combination of technical proficiency, creative problem-solving, and client-focused approach makes me well-suited to help deliver exceptional video content while maintaining your standards for quality and efficiency.

Thank you for considering my application. I look forward to discussing how my cinematography expertise can support your mission.

Best regards,  
**Jim Elli**
